May 2021 Covid Care Kits Distribution in 10 villages

So much thanks to all the donors and the parishioners for a lot of help.

For all these things money has to be paid yet, because the money is now struck in Delhi and the State Bank of India is unnecessarily delaying the release of money for silly reasons. We don't know how but we are trying to rectify through my grandson Boreddy Surya Prakash Reddy. He is in contact with the Branch Assistant Manger of the bank. He is doing the process for opening of the Internet banking. Already we struggled so many days to make the money from Germany Credit into the Delhi account. These bank people are not bothered about anything and corona is also more and working staff in the banks are also less.

I don't know how we can help if the situation is like this for so long. We have to pay to masons and also for the construction works which are going on at Polur. For now all the money has to be paid yet, hoping to pay them back after i receive money from Delhi.

Your Sincerely,
Fr.B.Marreddy.
